

PREVENTION 1ST

Elevating preventive health policies to tackle chronic disease: Australia's greatest health challenge

Prevention 1st is a campaign backed by like-minded public health organisations, not-for-profits, and research and advocacy bodies, calling on all Australian governments and political parties to commit to a strong preventive health agenda to tackle Australia's greatest health challenge.

Prevention 1st will pursue every opportunity to express the need for action on public policy that the evidence shows will stop and prevent the rising burden of chronic disease.

Cancer Council Queensland

Australian Federation of AIDS Organisations

Exercise & Sports Science Australia (ESSA)

Add your organisation's voice to the efforts to advocate for evidence-based policies and programs which will benefit all Australians. By doing this you are sending a very clear message to our political representatives to prioritise public health prevention and reduce Australia's burden of chronic disease.
